KEY FEATURES

SMOOTH RIDE

A high-end suspension fork allows you to effortlessly glide over bumps in the road. A simple lockout switch saves energy when you don't need the suspension.

STOP ON A DIME

Top of the line hydraulic disc brakes stop on a dime with the greatest of ease. The levers are easier to pull than normal disk brakes, and they feel more responsive.

EASY PEDALING

A larger front chainring and deluxe 10-speed drivetrain provide fluid shifting and comfortable pedaling – even at high speeds.

BREATHTAKING PERFORMANCE

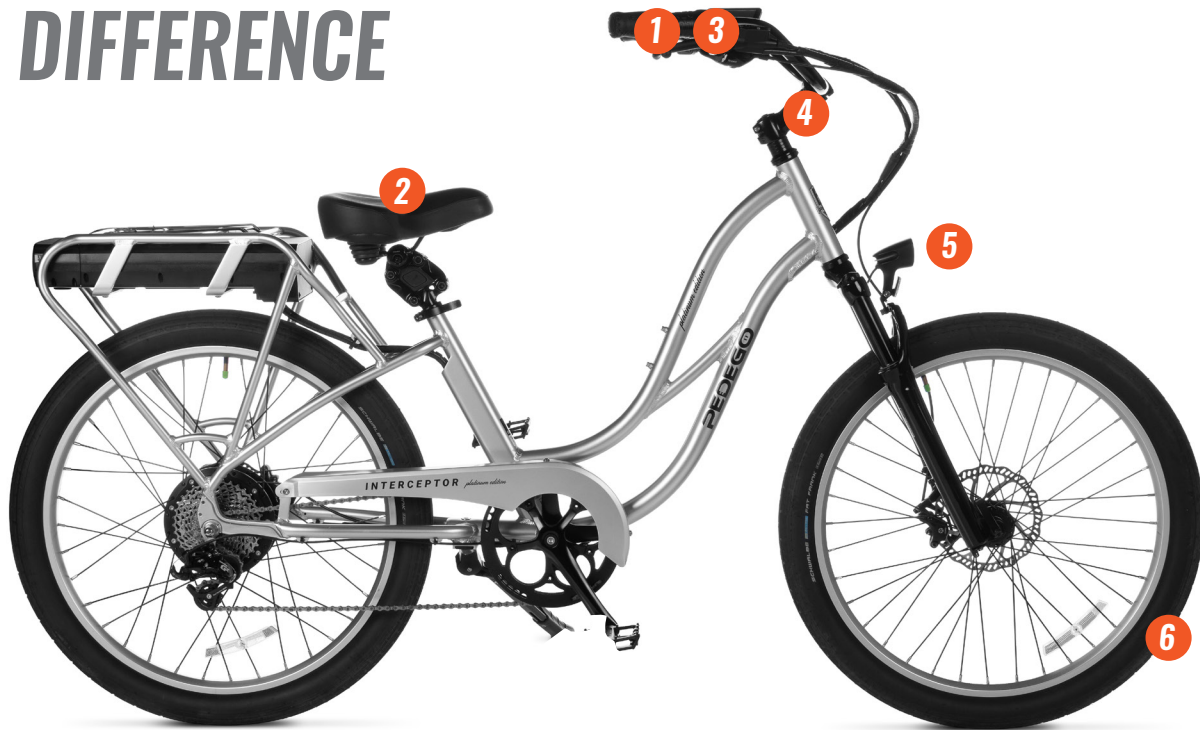

- A whisper quiet, 749 watt motor delivers best in class acceleration and hill climbing. The sensation of power it gives you is exhilarating.
- A state-of-the-art 52 Volt battery uses the same advanced lithium-ion cells as an electric car. It weighs less than a housecat and can take you up to 60 miles on about 10 cents worth of electricity.

PEDEGO
ELECTRIC BIKES

SMALL DETAILS MAKE A BIG DIFFERENCE

1. Throttle

Twist-and-go throttle with color LED indicator for maximum safety.

4. Relaxed Handlebars

Wide, swept back handlebars allow you to sit back and relax.

2. Comfy seat

Soft saddle with a suspension seatpost for extra cushioning where it counts.

5. Bright Lights

Built-in front and rear lights for your safety and convenience.

3. PedalSense®

Twist-and-go throttle, 5 levels of pedal assist, and LCD display with USB charger.

6. Balloon Tires

Kevlar-belted tires help prevent flats and give you a nice, smooth ride.
