KEY FEATURES

CLIMB A WALL

An exclusive 500 watt motor gives you twice the power of a typical mid drive. The acceleration and hill climbing will take your breath away – from exhilaration, not over-exertion! Long and steep hills don't stand a chance. Don't try it at home, but it can even climb a wall!

TWIST-AND-GO THROTTLE

Enjoy the excitement and convenience of having full power on demand. A throttle is especially helpful for getting started from a standstill (sometimes it can be awkward to gain momentum), getting a quick burst of power to climb a hill, or safely getting through an intersection.

GO FARTHER

A state-of-the-art 48 Volt battery uses the same advanced lithium-ion cells as an electric car. It weighs less than a housecat and can take you up to 60 miles on about 10 cents worth of electricity.

PEDEGO
ELECTRIC BIKES

SMALL DETAILS MAKE A BIG DIFFERENCE

1. Comfort & Style

Traditional frame geometry and city-style handlebars feel natural and familiar.

2. Adjustable Handlebars

Quick-release handlebar stem allows you to find a perfect fit.

3. Full Coverage

A full coverage chain guard and fenders with mud flaps keep you clean and dry

4. Bright Lights

Built-in front and rear lights for your safety and convenience.

5. PedalSense®

Twist-and-go throttle, 5 levels of pedal assist, and LCD display with USB charger.

6. Balloon Tires

Kevlar-belted tires help prevent flats and give you a nice, smooth ride.
